PROJECTS

Kababjees Restaurant Website | | Html, Css, Bootstrap, JavaScript

- Developed a fully responsive and dynamic clone of the Kabajees website, utilizing HTML for the structure, CSS for styling, JavaScript for interactivity, and Bootstrap for a mobile-first layout with smooth user experience across devices.
- link : <https://farheenmalak.github.io/Kababjees-Replica/>

Magic Spoon Website Clone | Html, Css, JavaScript

- Developed a fully responsive replica of the Magic Spoon website using HTML, CSS, and JavaScript. Employed modern web design principles to create a visually appealing and user-friendly interface with smooth navigation, mobile responsiveness, and interactive elements. Integrated custom animations and dynamic content, ensuring a seamless user experience across multiple devices

Travel Tracker App | Html, Css , Javascript, Google maps api

- Developed a dynamic Travel Tracker App using HTML, CSS, JavaScript, and the Google Maps API, offering an engaging platform for travel planning and exploration. The app features an interactive map where users can mark and save destinations, enhanced with a 3D view functionality for an immersive experience.
- link : <https://farheenmalak.github.io/Js-Project/>

Blog App |

- A web based based app where you can create, edit and delete blogs.
